

# ANANYA NARANG

Data Visualization & Analytics | Python · SQL · MongoDB · Power BI · Tableau

[ananyanarang1411@gmail.com](mailto:ananyanarang1411@gmail.com) | +91-9810820774 | [www.linkedin.com/in/ananya-narang-776128246](https://www.linkedin.com/in/ananya-narang-776128246) | <https://github.com/HeheAnanya>

## SUMMARY

Detail oriented Data Visualization & Analytics professional with practical experience transforming raw datasets into actionable insights using Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly), SQL, Power BI, Tableau, and Excel dashboards. Skilled in end-to-end analytics workflows data extraction, wrangling, exploratory data analysis (EDA), statistical modelling, and interactive dashboard creation. Demonstrated ability to integrate AI/ML (Scikit-learn, Gemini API) and automate data pipelines to drive data-driven decision-making.

## EDUCATION

**Bachelor of Technology — Computer Science & Engineering** 2024 – 2028

Newton School of Technology, Rishihood University | CGPA: 8.19 / 10

**Intermediate (Class XII)** 2023 – 2024

GSKV NANGLOI | Percentage 88.8%

**Matriculation (Class X)** 2021 – 2022

Hansraj Model School, Delhi | Percentage 86.6%

## TECHNICAL SKILLS

|                      |                                                                                      |
|----------------------|--------------------------------------------------------------------------------------|
| <b>Analytics</b>     | Pandas, NumPy, Exploratory Data Analysis (EDA), Statistical Analysis, Data Wrangling |
| <b>Visualization</b> | Matplotlib, Seaborn, Plotly, Power BI, Tableau, Excel Dashboards & Pivot Tables      |
| <b>Databases</b>     | SQL (MySQL), NoSQL (MongoDB), Query Optimization, Data Extraction                    |
| <b>Languages</b>     | Python                                                                               |
| <b>Tools</b>         | Git, GitHub, Jupyter Notebook, Excel                                                 |

## INTERNSHIPS

**Analytics and Automation Intern — Hecta** May 2025 – June 2025

- Developed a Python automation tool using the Gemini API to extract, translate, and organize text from images/PDFs into structured Excel reports.
- Developed a Python function to process audio inputs, utilizing speech-to-text to extract key entities (Location, Budget) and query large datasets for matching records.

**Script Writing Intern — Digitaula Lab LLP** Feb 2025 – April 2025

- Created age-appropriate learning modules for early learners

## PROJECTS

**Customer Behavior Analysis** [\[Code\]](#) Python · SQL · Power BI · Pandas · EDA

- Built a corporate-grade analytics pipeline data cleaning, EDA, and SQL based customer segmentation using Pandas & NumPy to uncover purchase drivers, loyalty patterns, and behavioral trends across demographic segments.
- Designed an interactive Power BI dashboard translating raw insights into stakeholder ready business intelligence, supported by a formal project report with actionable marketing and retention recommendations.

**Global E-Commerce** [\[Code\]](#) Python · Tableau · EDA · Pandas ·

(Group Project)

- Analysed 293K+ transactions across 5 countries and 5 product categories built a Python ETL pipeline in Google Colab to clean raw data, engineer 6 business KPIs (Total Revenue: \$401.6M, Customer Satisfaction Rate: 49.1%), and conducted EDA uncovering key insights: income and age show zero impact on spend, Electronics leads volume (69K transactions), and no seasonal demand variation exists.
- Delivered a 3 interactive Tableau dashboard translating findings into 4 quantified business recommendations including an 8–12% revenue uplift via category reallocation and 15–20% repeat purchase increase through loyalty tier redesign enabling data-driven decisions on marketing, inventory, and shipping strategy.

## EXTRA-CURRICULAR ACTIVITIES & ACHIEVEMENTS

- Accepted as a perfect delegate for HPAIR 2025
- Been in the Organizing-Committee of annual cultural fest of Rishihood University (DAMRU'24).
- Internship Completion — Analytics & Automation Intern, Hecta (May–June 2025).
- Internship Completion — Script Writing Intern, Digitaula Lab LLP (Feb–April 2025).
